MAIL STOP APPEAL BRIEF - PATENTS
Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

RESPONSE TO NOTIFICATION OF NON-COMPLIANT APPEAL BRIEF

Sir:

This is in response to the notification of non-compliant appeal brief dated June 8, 2007 and the undersigned's phone conversation with Patent Appeals Center Specialist Bridget C. Monroe on June 11, 2007.

Reconsideration is requested of the conclusion that the brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal. As discussed with Specialist Monroe the section of the brief captioned "Summary of the Claimed Subject Matter" extending from the bottom of page 1 through page 3 provides the required concise explanation. Each of claims 1, 18 and 33 is summarized in narrative form with reference to the immediately preceding text and drawings that also refer to the specification by page and line number and with reference characters. This will confirm the phone discussion with Specialist Monroe in which it was acknowledged that the claim summary requirements of the rule has been satisfied. Additionally, this will confirm that where none of the claims includes a

Response to Notification of Non-Compliant Appeal Brief

means-plus-function or step-plus-function recitation, there is no need for a recitation of the corresponding structure, material or acts described in the specification.

Reconsideration also is requested as to the conclusion that the brief did not contain copies of the evidence submitted. Although the evidence was in fact submitted as Exhibits A and B to the brief, appellant is submitting herewith a replacement evidence appendix (pages C-1 – C-3) that includes a statement setting forth where in the record the evidence was presented. Also enclosed are replacement pages “i” and A-1.

Finally, reconsideration is requested of the conclusion that the brief failed to contain copies of decisions identified in the section on Related Appeals and Interferences. As indicated in the brief, there were none. Appellant is also submitting herewith a fresh Table of Contents.

It is believed that the brief is in compliance with the rules.

Respectfully submitted,

Arthur Z. Bookstein

EVIDENCE APPENDIX C

Evidence Appendix C includes two Exhibits, Exhibit A and Exhibit B, both of which were identified and discussed in appellants' amendment mailed September 15, 2006 in reply to the official action of March 17, 2006. Although the copies of Exhibits A and B (dictionary definitions) were indicated to have been enclosed with the amendment, it is unclear from appellants' file whether they were, in fact, included. They were, however, quoted and identified as to internet source. Exhibits A and B of this appendix are copies of those web pages.

No evidence has been submitted pursuant to 37 CFR §§1.130, 1.131, or 1.132.
